**DELA Energy - Your partner in harnessing
clean energy**

Who we are?

Business area

- DELA Energy® is a one-stop company in solar PV market Ukrainian with 12 year long successful track record of project development, EPC and O&M

Main markets

- Ukraine
- Europe
- Middle East

Experience

- Project development and management
- EPC of solar power plants (SPP)
- EPC of transit and distribution systems (low, medium and high voltage up to 150 kV)
- Commissioning works
- Operations and services
- Quality management
- Government relations
- Consulting in renewable energy sector

History of DELA Energy®

Milestones

- 2010** - Rentechno company was founded
- 2011** - The 1st solar power plants was completed by Rentechno as EPC-contractor
- 2017** - 30 MW of SPP completed Rentechno as EPC-contractor
- 2018** - Rentechno restructured to DELA Energy®
- 2021** - 104 MW of SPP turn-key projects completed by DELA Energy® team
 - 48,2 MW SPP in O&M
 - 10,3 MW SPP in ownership

Membership

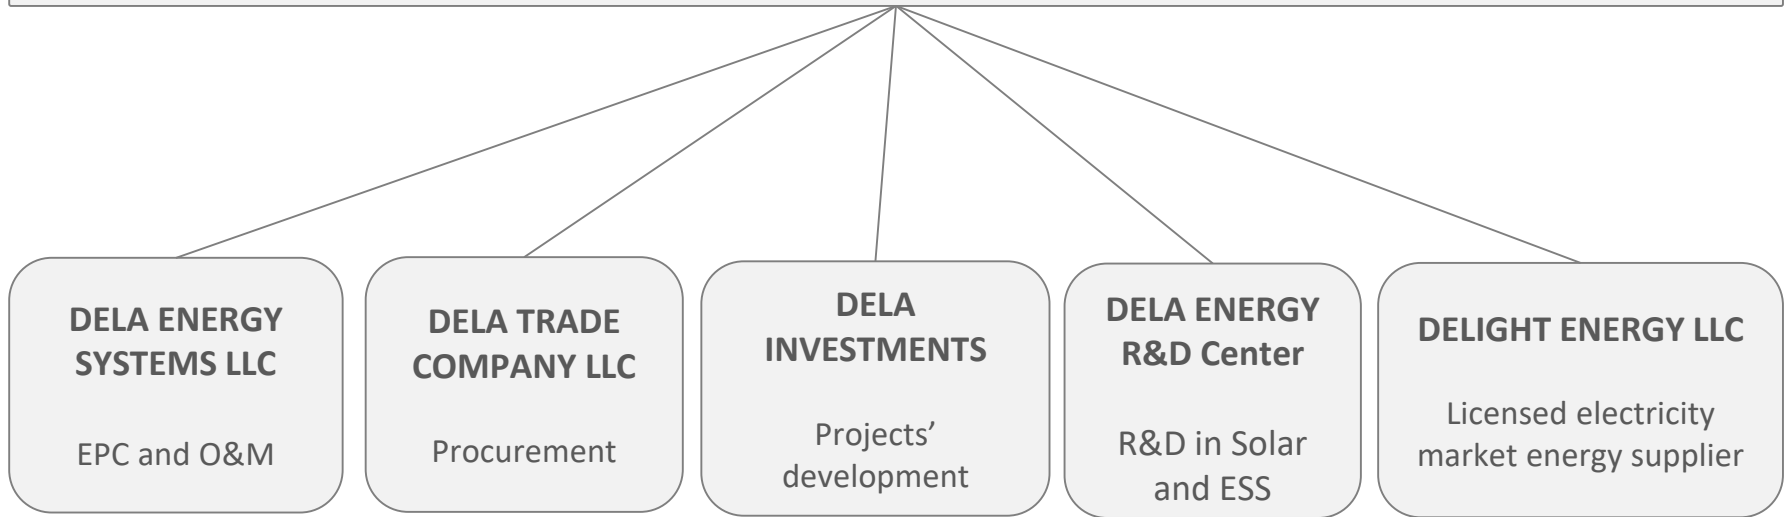

- Member of EUEA since 2018 www.euea-energyagency.org
- Member of EBA since 2020 <https://eba.com.ua>
- Member of American Chamber of Commerce (ACC) since 2022 <https://chamber.ua/>

CSR

- Sponsorship of StrongMan Ukraine Championship 2020/2021

Group operations

SUPERVISORY BOARD

Team

More than 50 team members across 5 companies

Financials

Revenue exceeds UAH 1 bln for the last 3 years
Strong balance sheet - no bank loans or significant liabilities

Key suppliers

Your PV power plant turnkey EPC and O&M partner

- ✓ **DELA ENERGY SYSTEMS** - EPC contractor in solar energy market, which designs, manufactures and installs bankable utility-scale or commercial solar power plants.
- ✓ We offer specialized solutions for the realization of power plants:
 - Feasibility study
 - Site selection
 - Identifying specific factors that can affect efficiency
 - Cost estimates
 - Secure all permits
 - System design and engineering
 - Equipment selection, procurement and logistics
 - Electrical, mechanical and structural engineering design
 - Fabrication and installation drawings
 - As-built documentation
 - Project and construction management
 - Process systems troubleshooting
 - Installation and testing
 - Construction inspection
 - Operation, monitoring and maintenance

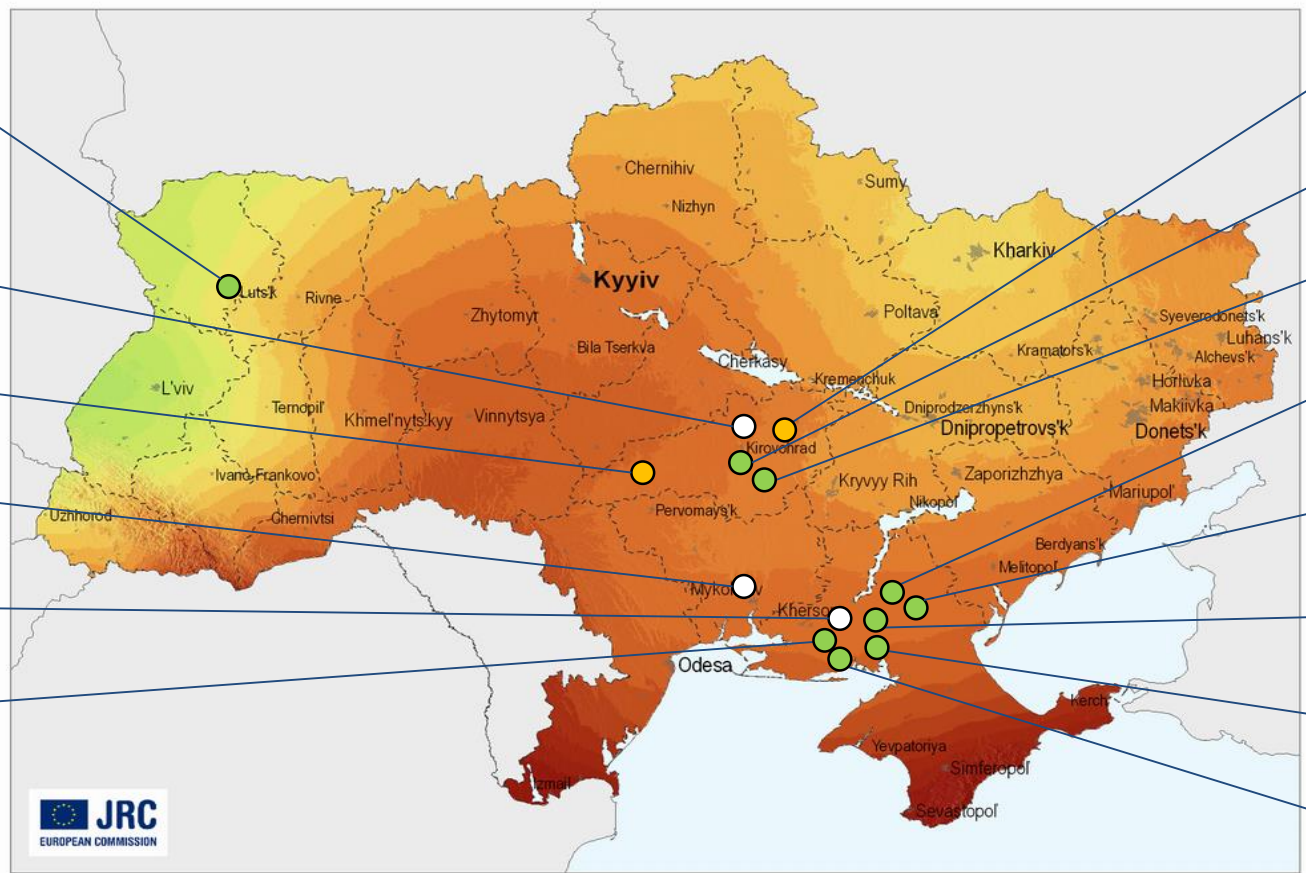

Our key SPP projects

- 0,6 MW
- 14 x 1 MW
- 5,6 MW
- 6 x 1 MW
- 10 x 1 MW
- 8,2 MW

- 4,7 MW
- 3,1 MW
- 2,0 MW
- 8,6 MW
- 6,4 MW
- 5,3 MW
- 4,8 MW
- 6,0 MW

Global irradiation and solar electricity potential
 Optimally-inclined photovoltaic modules

- Completed by DELA:**
- For investors
 - Own investments
 - In development

Authors: M. Šúri, T. Cebebauer, T. Huld, E. D. Dunlop
 PVGIS © European Communities, 2001-2008
