15.07. 2019

Founded in 1994, Interrybflot Corporation is a vertically integrated company with a full cycle of tinned fish production and a leader in the Ukrainian fish tinning market. Products made by the corporation are represented by its own trademarks such as *Aquamaryn*, *More*, *IRF*, *Sea Collection*, *Atlantic*. The *Aquamaryn* trademark is a national brand leader in the tinned fish market of Ukraine. A 2013 GFK marketing study shows that the *Aquamaryn* trademark awareness reaches 73%.

Interrybflot Corporation has been cooperating with IMEKCO for a long time period to acquire and protect intellectual property rights both in and outside Ukraine. Andriy Atamanchuk, a patent attorney, has been consulting the company on judicial defense of the company's trademarks for the last five years.

We are satisfied with the high quality of project supervision by IMEKCO and contractors engaged by it and emphasize a high level of legal expertise and responsible fulfillment of our tasks. For this reason, we recommend IMEKCO (IMEKCO LLC) as a professional and reliable partner in protection of intellectual property rights.

Deputy Vice President
for Legal Affairs and Security

Yuri Lukashov
