

Nuclear Energy Monitoring Center

The Information and Analytical Center for Nuclear Energy Monitoring of the National Academy of Sciences of Ukraine is committed to scientific research and innovative technological solutions for the safe operation of nuclear energy facilities. This center is vital in enhancing safety protocols and monitoring systems within the nuclear energy sector.

Overview of the Center

Focus on Research

Innovative technological solutions for energy facilities.

Nuclear Energy Safety

Enhancing safety in nuclear operations.

Advanced Methodologies

Leveraging technologies for efficiency.

Services Offered

Information
and Analytical
Research

Consultation
Support

For enterprises
and government
bodies

Technical
Support

For safety
monitoring

Key Achievements

New Safety Methodologies

Implementation of innovative safety analysis methodologies.

Infrastructure Monitoring

Monitoring of critical infrastructure objects for safety.

International Collaboration

Collaboration with global organizations in energy monitoring.
