

Unique Technologies

From code to product From service to solution

Unique Technologies LLC, Dnipro, UKRAINE

Our Full-Cycle Software Development Services

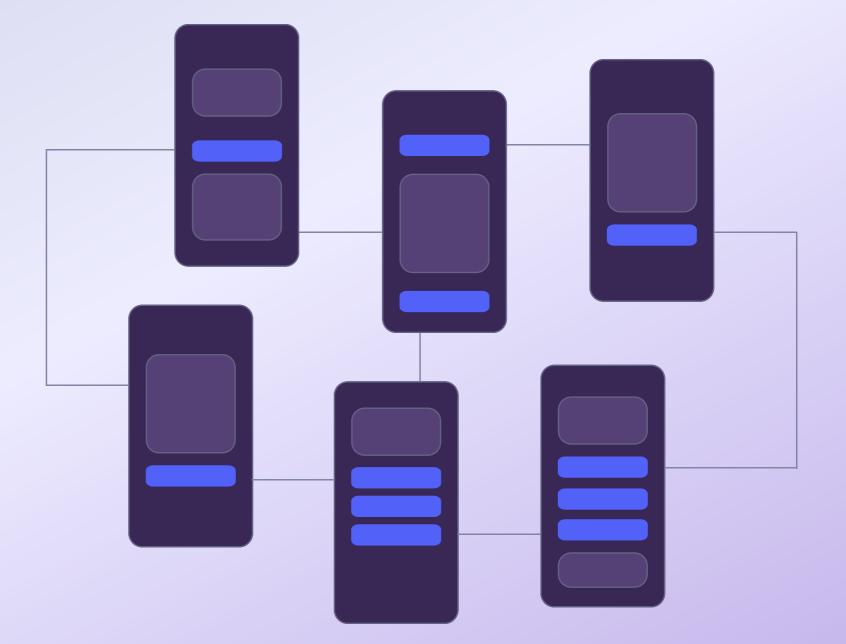

- Use of the **latest and most efficient technologies** and tools to develop high-quality products
- Agile development methodology for faster delivery and seamless collaboration
- Transparent communication and **regular project updates** to ensure complete client satisfaction
- Tailored solutions to meet the unique needs and goals of each client

Idea Prototyping and Concept Development

We will make a **clickable prototype** that offers a realistic experience of navigating through your product

The prototype will not only help developers understand the project requirements better, but also prevent them from implementing features incorrectly

Our UI/UX designs are made **using Figma**, so you can access the sources and see the creative process for yourself

Idea Prototyping and Concept Development

We create responsive web designs for a variety of resolutions

We also create app designs for iOS and Android devices

FullHD

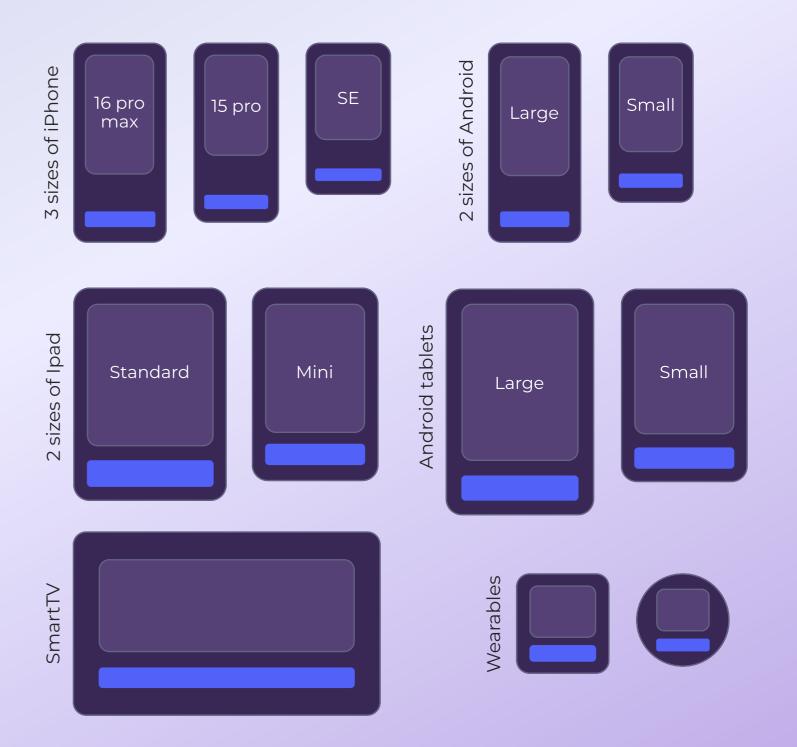

Phone

Laptop

Pad/Tablet

Implementing the MVP: From Idea to Product

Focus on **speed-to-market** and customer feedback to ensure that the MVP is launched quickly and refined based on user needs and feedback

> Importance of scalability in the MVP development process to ensure that the product can be expanded and improved as it gains traction in the market

Prototype

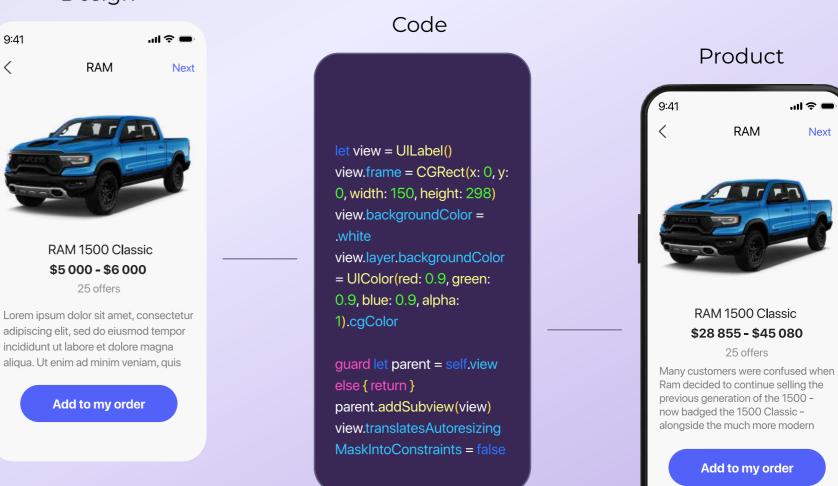

Price, \$

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad

Quality Assurance and Testing

QA process starts from day one

Each module and product undergoes **rigorous testing** including:

- Unit or component testing
- Integration testing

• System testing

Acceptance testing

Quality control and assurance are integrated into the design and development process

Our QA process ensures high-quality deliverables and a smooth end-user experience

Deployment Automation, Support and Further Scaling

We provide ongoing **support and maintenance** for your application, ensuring smooth operations and quick resolution of any issues

- Continuous Integration and Continuous Deployment (CI/CD) for seamless deployment
- AWS management for reliable and scalable infrastructure
- Load balancing for optimized performance and availability
- Scaling for future growth and increased demand
- Infrastructure budget management to ensure cost efficiency

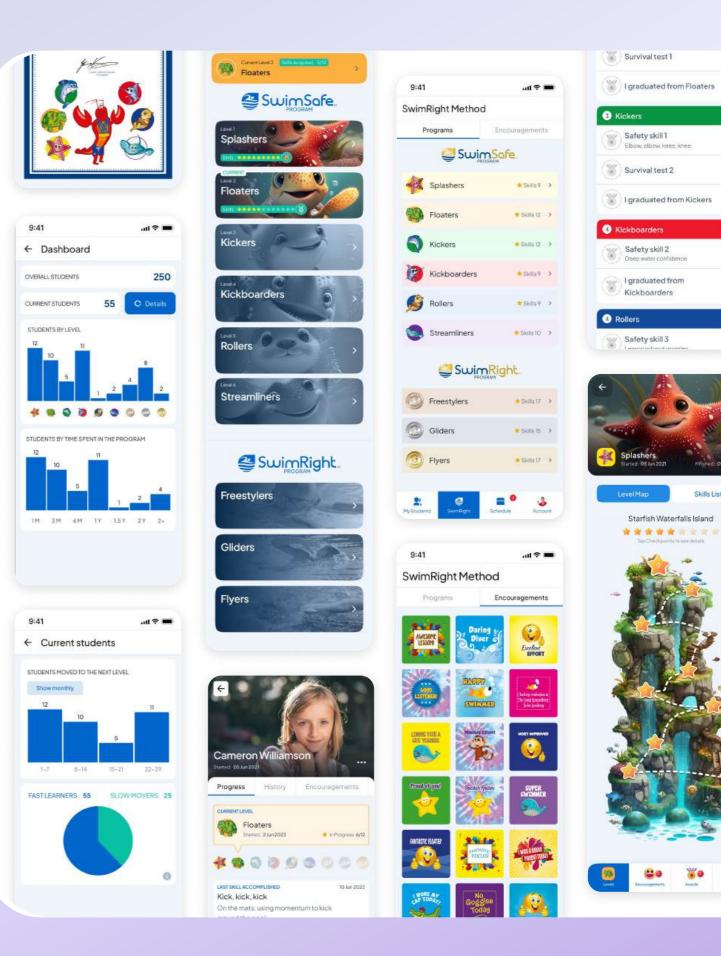

Our goal is to **help you succeed** and achieve your business objectives by providing end-to-end software development and support services

SWIMSTR

An app connecting kids and instructors for swimming classes, enabling instructors to track progress, offer encouragement, and access a teaching knowledge base. It's designed to be fun and engaging for kids, while also allowing parents to monitor their progress

Industry: Kids app **Year:** 2023 - 2025

072

SWIMSTR

The web admin dashboard allows swimming schools to manage their own dedicated workspaces, where they can track student progress, access and share study materials, and analyze marketing data. Each school's workspace is private and customizable, ensuring their operations remain organized while enabling better communication between instructors, parents, and administrators.

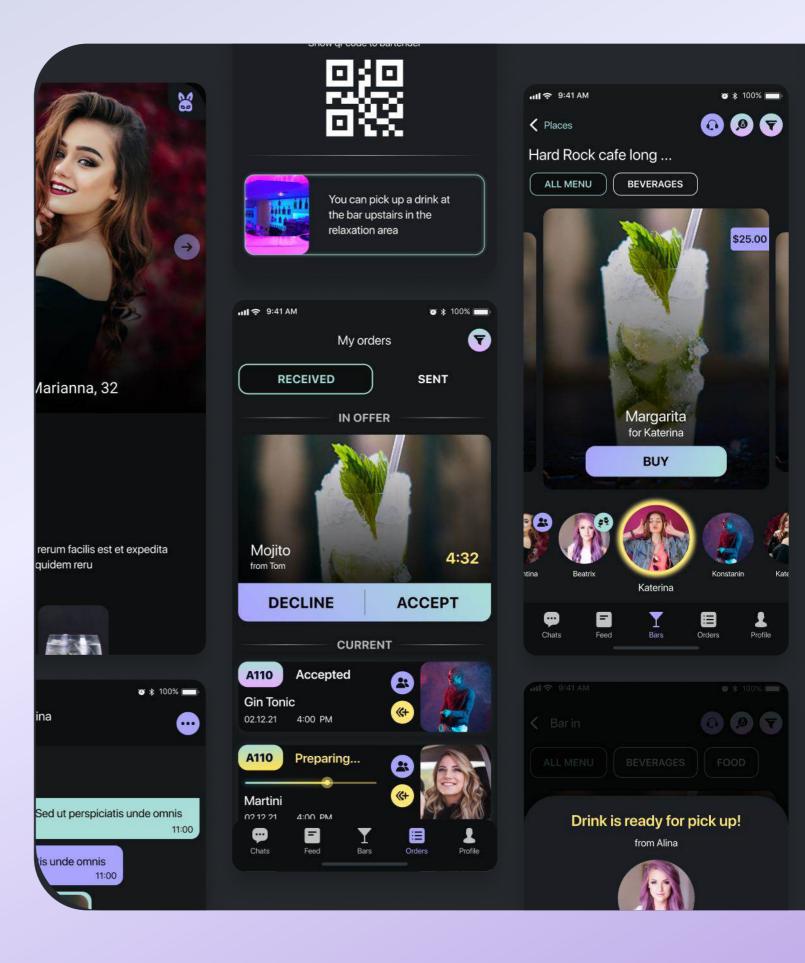

Industry: App Admin Dashboard Year: 2023 - 2025

SLINGSTIR

An entertainment app streamlines going out, drinking, and dating, allowing users to order drinks at connected bars through the app, meet friends, or find dates on-site

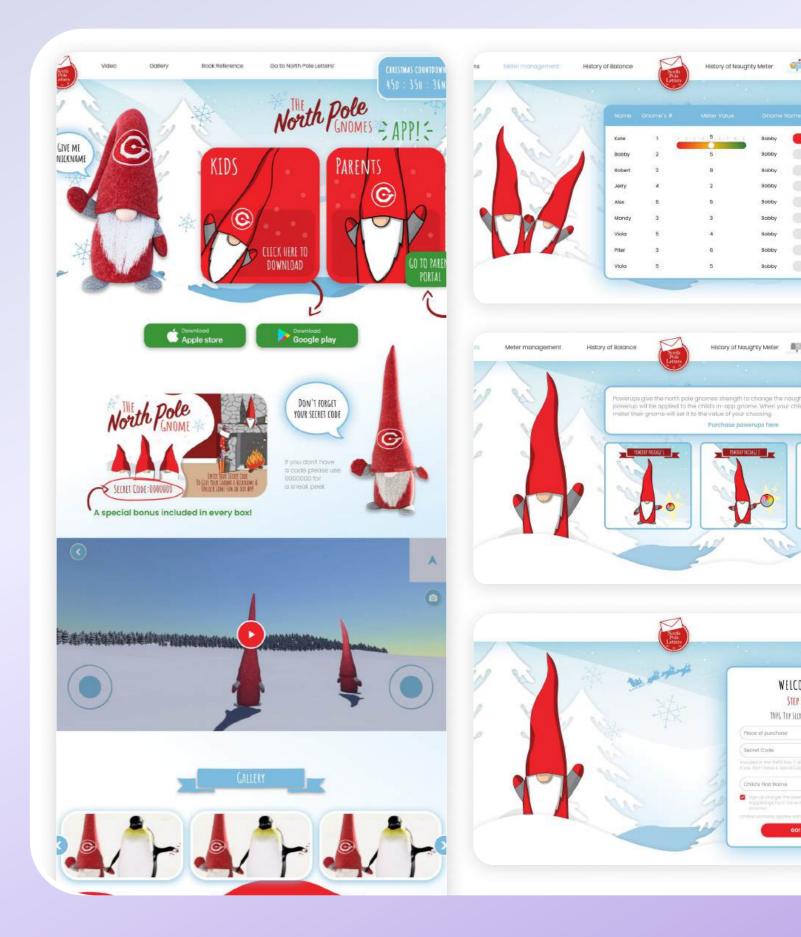

Industry: Entertainment

NAMEYOURGNOME.COM

3D hyper-casual app for kids and parents complements a physical toy, featuring a game available on Google Play and the App Store. It includes a child-friendly landing page and a parent-focused website for game customization, blending physical and digital play through engaging design and interactive features

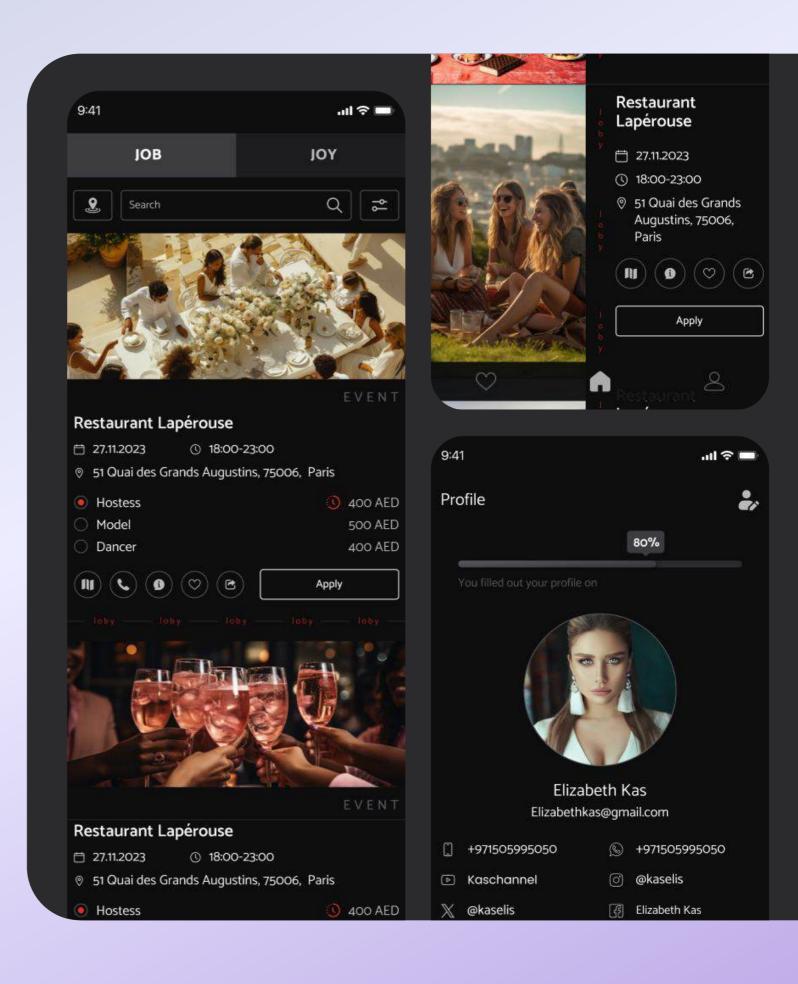

Industry: Kids game Year: 2021, 2024

JOBY

A mobile app that combines career opportunities with fun, created for people in artistic fields looking for job placements at venues or events. It allows venue owners or event organizers to connect with influencers, encouraging them to visit and share their experiences with their audience, offering perks in return

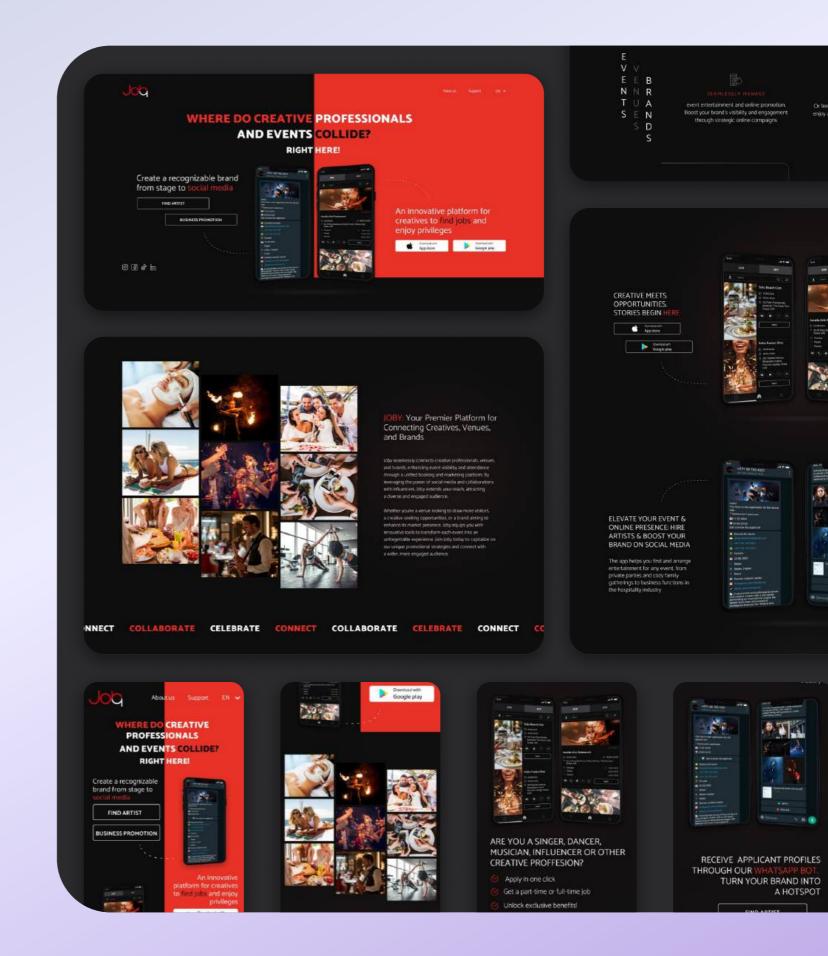

Industry: Recruitment, Entertainment

JOBY

The app's landing page is designed to provide a clear and engaging overview of its features, showcasing how it connects artistic professionals with event opportunities. It also includes a web portal where event organizers can easily post vacancies for gigs, performances, or collaborations. Organizers benefit from streamlined management as they are instantly alerted about new applicants through a WhatsApp bot, ensuring quick and efficient communication

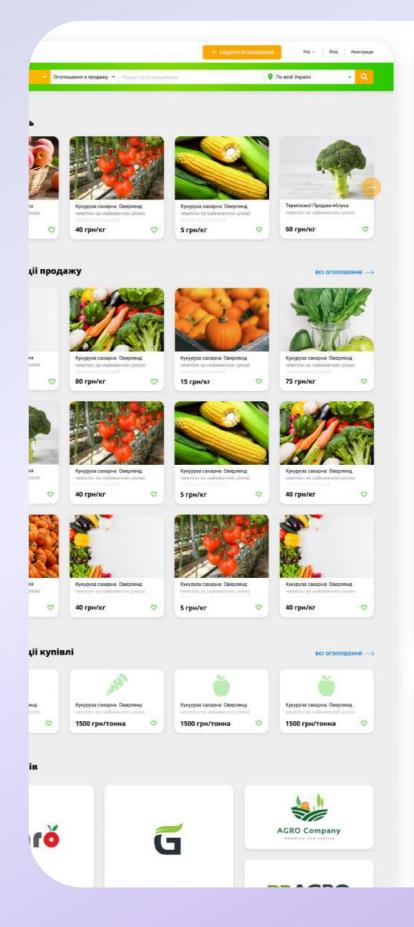

Industry: Recruitment, Entertainment

PROD

An agrarian marketplace with a website and mobile apps, designed for farmers to swiftly list their produce and connect with B2B buyers

Industry: E-commerce B2B Year: 2019

BOOMERANG24.COM

The web platform for the cargo app offers a convenient solution for clients who need cargo services but prefer not to download the app. It allows users to place orders directly from their browser, providing a smooth experience for those arriving from organic searches. Clients can easily input their cargo details, receive bids from carriers, and select the best option

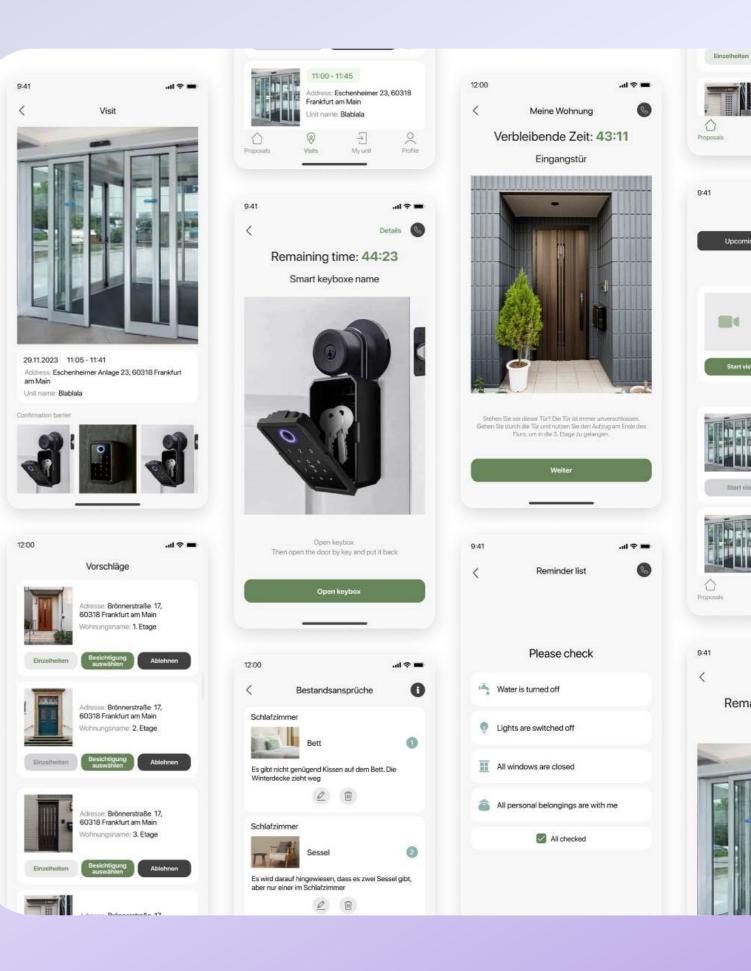

Industry: Transpotation Year: 2021

FLATFLOW.DE

An innovative app that revolutionizes the rental experience by enabling tenants to access their rented residences through electronic locks, eliminating the need for key exchanges. Tenants can seamlessly sign rental contracts within the app and make secure payments for their stay, all without requiring landlords to be physically present

Industry: Real estate

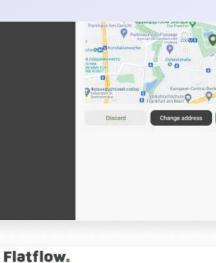

FLATFLOW.DE

The web portal for landlords offers a comprehensive platform to manage their rental properties with ease. Landlords can add and configure electronic locks, track rental payments and view detailed statistics on property performance and occupancy. The portal simplifies property management by centralizing all essential tools, enabling landlords to oversee multiple properties efficiently

Industry: Real estate
