KIT GLOBAL

We are in IT
from 2014 year

Done over 50
projects

Office
Ukraine, Sumy

Team
More than 15 people

About us

Kit Global provides web and mobile product development services. Creates projects for businesses, public organizations, educational and state institutions in Ukraine, CIS countries, Europe, USA.

Our team performs all stages of product creation - from audit to support and promotion of the finished project.

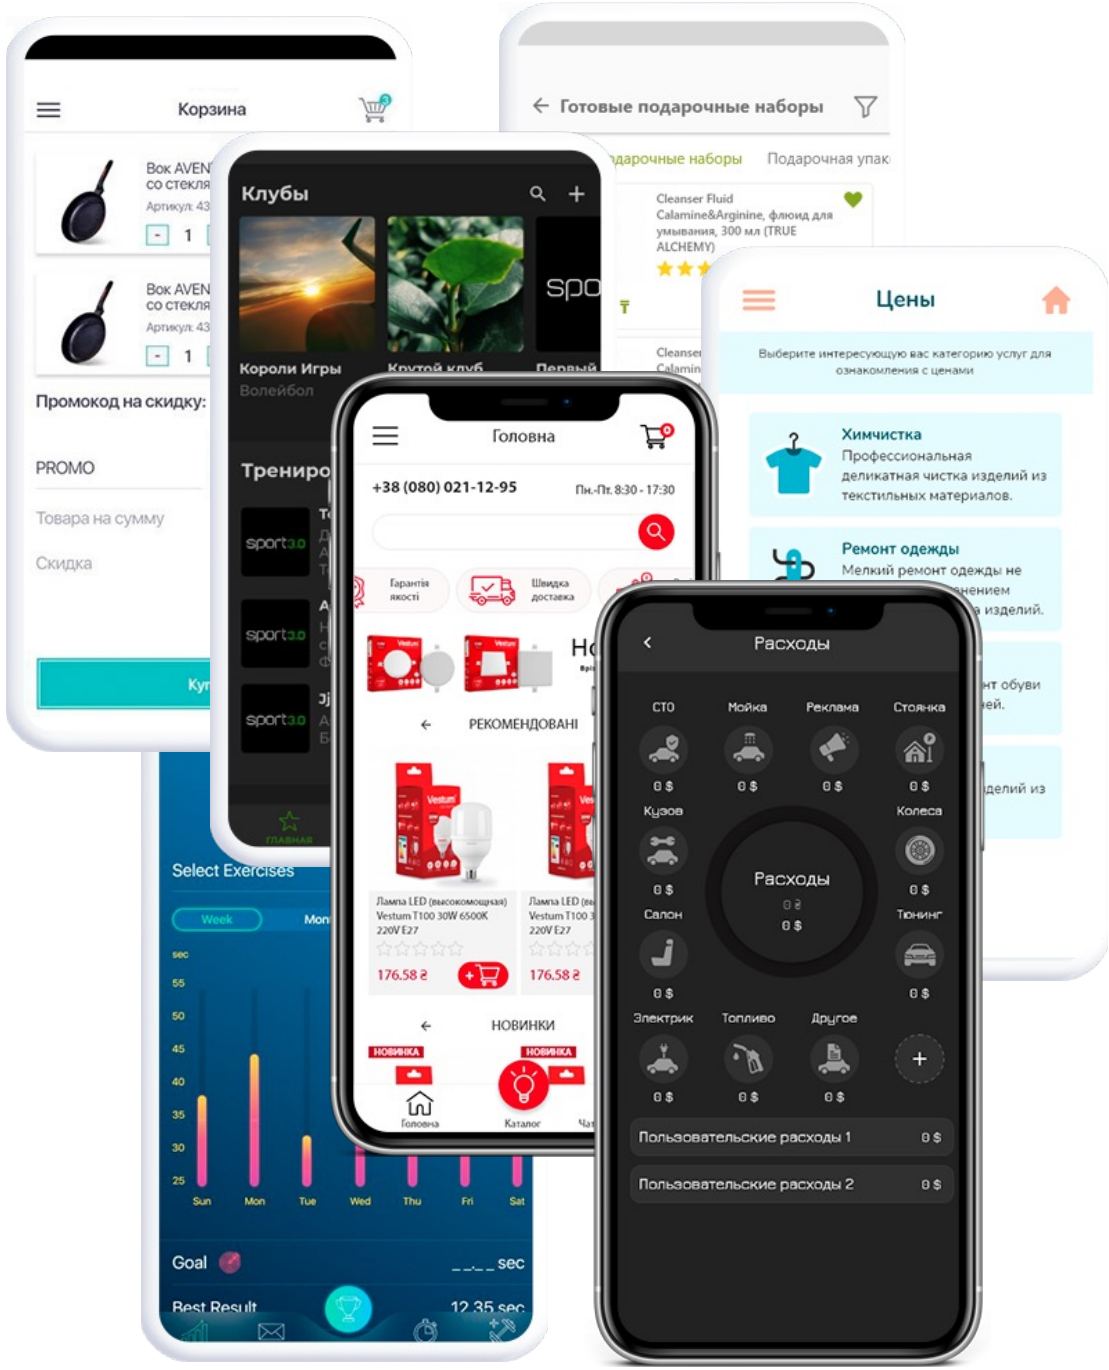
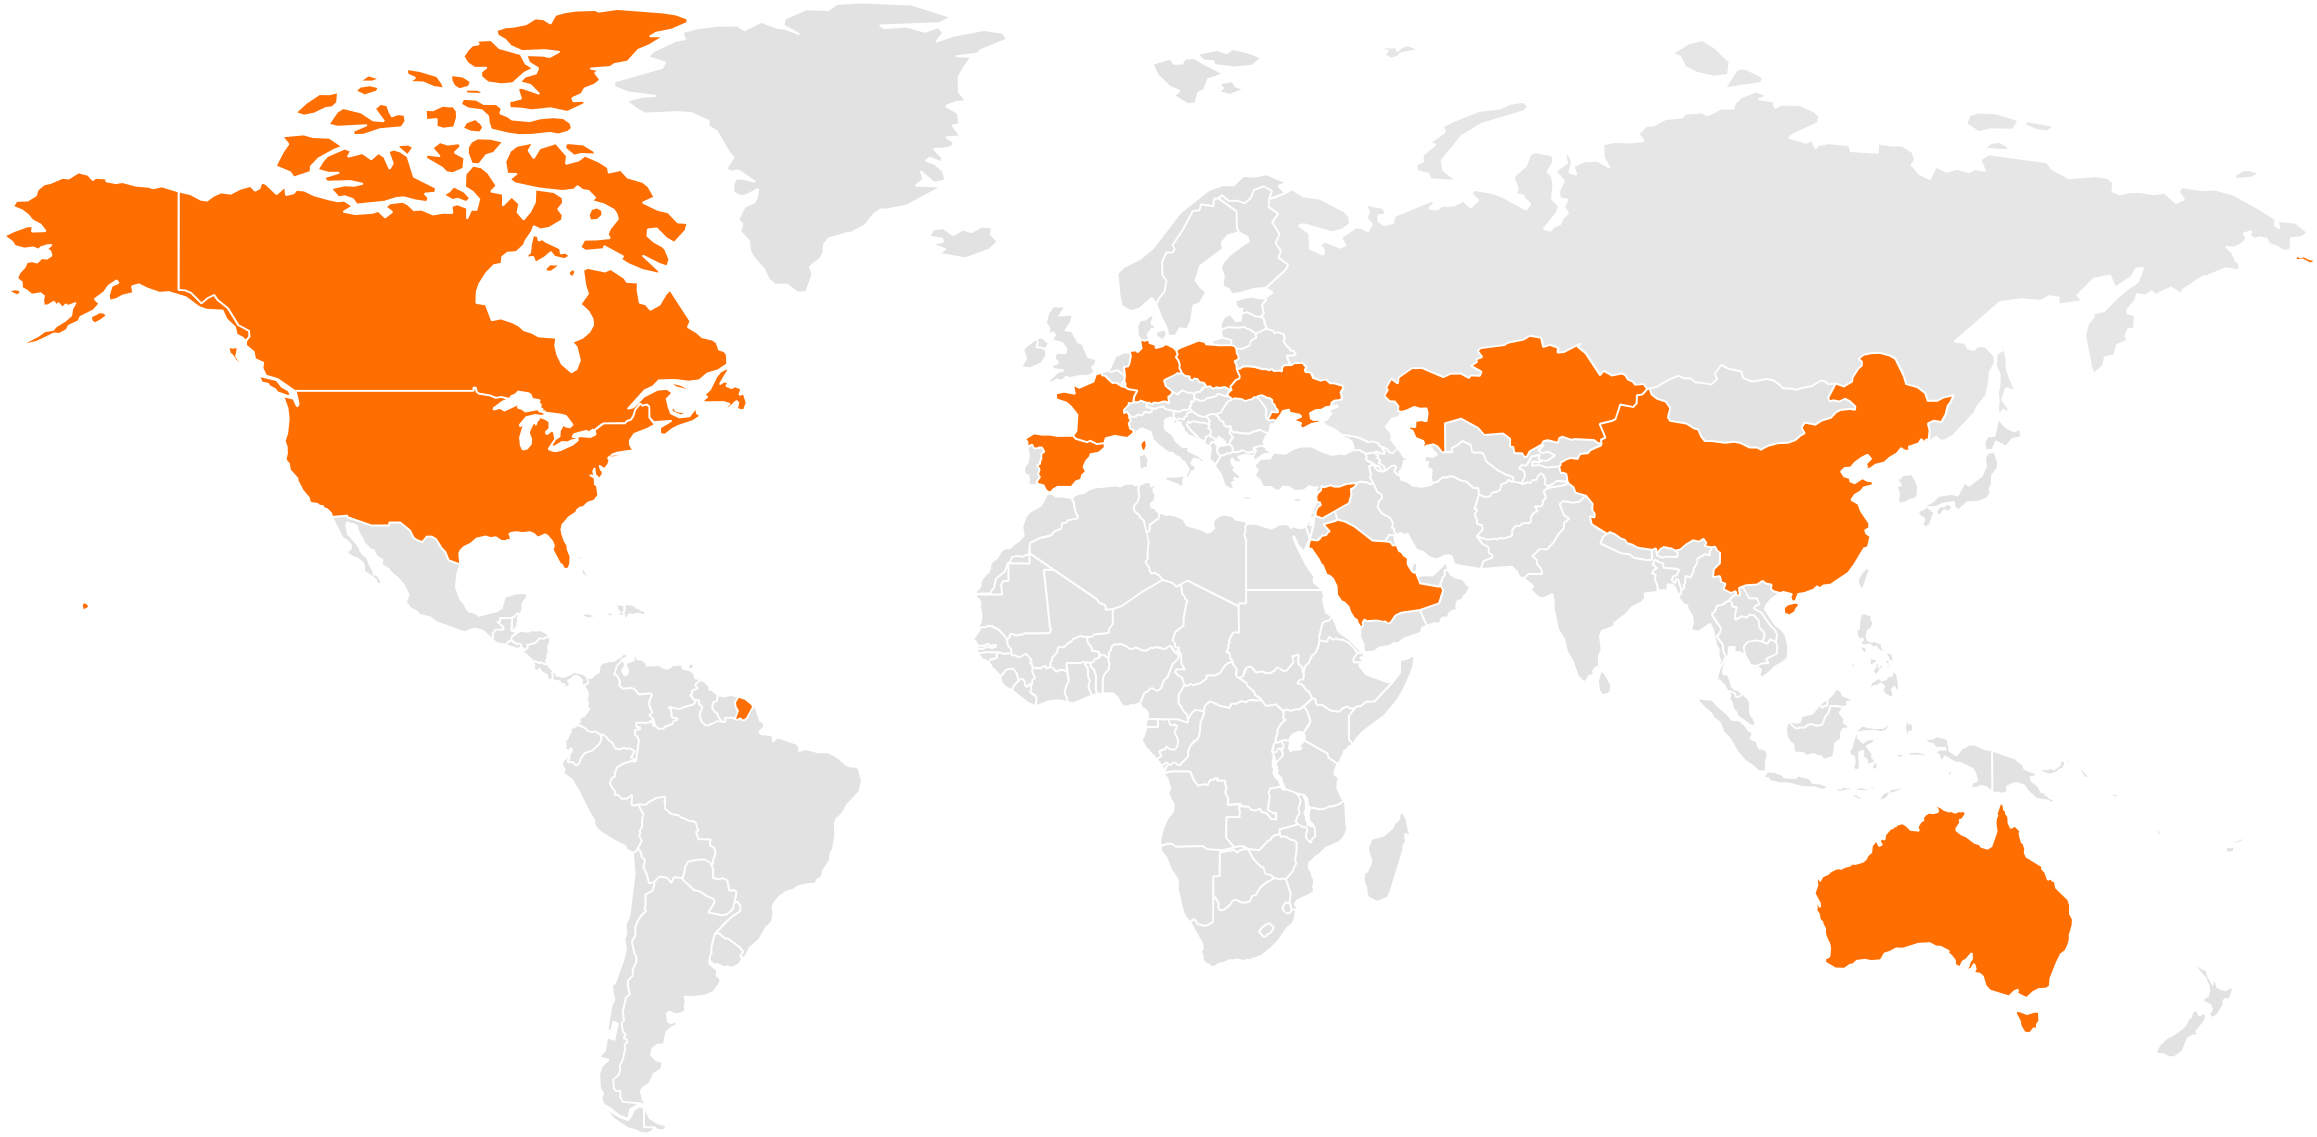
Technologies

- TypeScript
- React
- React Native
- Node.JS



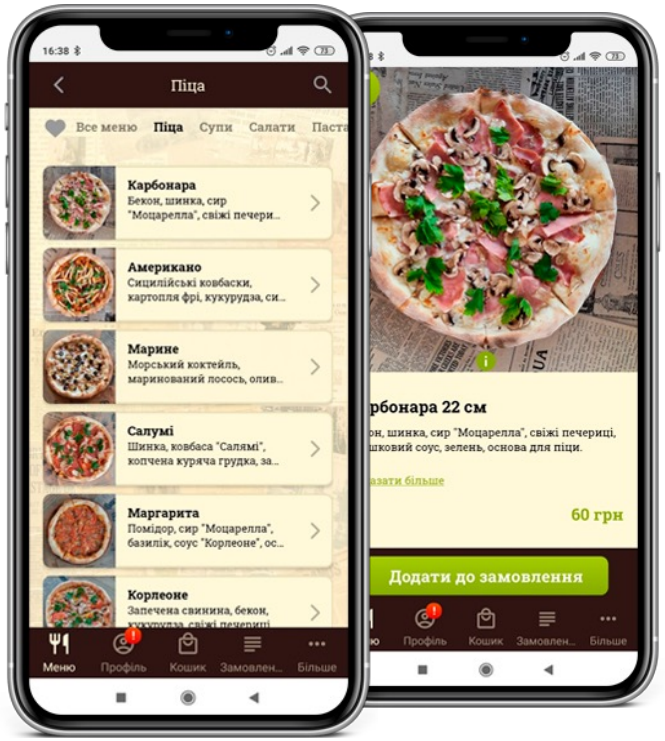
Geography of work



Our product

RestUp

Mobile app for restaurants



restup.kitapp.pro

Corleone Pizza

Example

Our product

E-COMMERCE APP

Mobile app for e-commerce

- We develop the product individually for the needs and demands of your business.
- The mobile app has advanced functionality for users and administrators.
- The application improves sales efficiency through process automation.
- It opens new horizons in the development and scaling of the company.
